📍 Karachi, Pakistan (Open to Remote)

PROFESSIONAL SUMMARY

Results-driven WordPress Developer with 6+ years of hands-on experience designing, building, and maintaining high-performance websites for clients across the US, Canada, Australia, and beyond. Specializing in WooCommerce e-commerce development, website migrations, and performance optimization, I bring a track record of delivering client-focused digital solutions — on time, on budget, and built to last. Disciplined and self-directed (shaped by 5 years of service in the Pakistan Army), I excel in remote work environments and thrive on clear communication and accountability.

CORE SKILLS & EXPERTISE

▶ WordPress Development	▶ WooCommerce Stores
▶ Elementor Pro	▶ HTML5 & CSS3
▶ Website Speed Optimization	▶ Core Web Vitals
▶ Shopify → WordPress Migration	▶ HTML → WordPress Migration
▶ On-Page SEO	▶ Plugin Configuration
▶ cPanel & Hosting Management	▶ Malware Cleanup & Security
▶ Website Maintenance	▶ Client Communication
▶ Responsive Design	▶ Remote Project Management

PROFESSIONAL EXPERIENCE

Freelance WordPress Developer | *Self-Employed / Remote* 2020 – Present

Worked independently with international clients from the US, Canada, Australia, and the UK to build and maintain professional WordPress websites and WooCommerce stores.

- ▶ Designed and launched 350+ WordPress websites for international clients across e-commerce, services, and corporate sectors.
- ▶ Built custom WooCommerce stores with product management, payment gateway integration, and optimized checkout flows.
- ▶ Converted Shopify and HTML designs into fully functional WordPress websites with pixel-perfect accuracy.
- ▶ Improved website loading speeds by 40–70% through image optimization, caching, CDN setup, and Core Web Vitals tuning.
- ▶ Managed domain, hosting, SSL, backups, and migrations across cPanel environments for multiple client accounts.
- ▶ Performed malware cleanup, security hardening, and ongoing maintenance for business-critical websites.

- Maintained clear and professional client communication across time zones via email, Slack, and Zoom.

Soldier | *Pakistan Army* 2014 – 2019

Five years of active military service shaped a foundation of discipline, leadership, and high-pressure problem-solving that directly informs my professional approach today.

- Developed strong leadership, teamwork, and accountability skills in demanding, structured environments.
- Consistently performed under pressure — a mindset applied to tight deadlines and challenging client projects.
- Built exceptional time management and self-discipline habits, directly applicable to independent remote work.

KEY PROJECTS & ACHIEVEMENTS

- Developed and launched a multi-vendor WooCommerce marketplace with custom product filtering, vendor dashboards, and Stripe integration.
- Migrated a 500-page Shopify store to WordPress without downtime, preserving all SEO rankings and URL structures.
- Achieved a Google PageSpeed score improvement from 38 to 91 for a client's e-commerce site, increasing conversions.
- Redesigned and rebuilt 3 business websites for Australian SMBs, with full mobile responsiveness and on-page SEO.
- Provided white-label WordPress development services to US-based web agencies on an ongoing basis.

WHY I'M A STRONG REMOTE CANDIDATE

- 6+ years of working independently with international clients — remote-first by practice, not just preference.
- Dependable communicator across time zones; comfortable with async workflows, Slack, Trello, Notion, and Zoom.
- Military background ensures high standards for discipline, reliability, and meeting deadlines without supervision.
- Fully set up home office with fast internet, backup connection, and professional client communication tools.

EDUCATION

FSc (Intermediate) — Hyderabad Board of Intermediate & Secondary Education, Pakistan

Supplemented formal education with continuous self-learning in WordPress, web technologies, and digital marketing through online platforms (Udemy, YouTube, and hands-on client projects).
